

TO WHOM IT MAY CONCERN

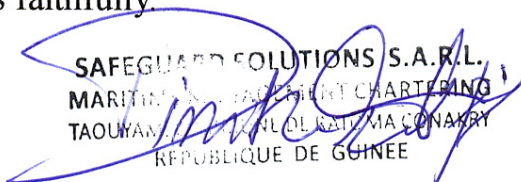

Walter Ferramosca was employed by Safeguard Solutions Sarl as Captain/Engineer of M/Y "Jojo" a Mangusta 80' and later as Captain for of M/Y "Spirit of Salima" a Tecnomar Velvet 35 meters.

Through our work relationship I found Walter professional, competent and reliable, always demonstrating commitment to the task at hand.

Walter has good social skills and assisted guests to relax on the boat, which was very important to me as the vessel was used as a "family boat" with a large turnover of owner's friend and business associates.

I have no hesitation recommending Walter to any potential employer and would wellcome a telephone to verify the above.

Yours faithfully
